Z900 SE ZR900MRFNN BK2 FEATURES

Superior Suspension

The large-diameter gold-colored inverted fork with greater adjustability is complemented by a Öhlins S46 rear shock for increased ride comfort and a superior sense of grip and handling. The rear suspension is also equipped with a remote preload adjuster, which makes it easy to adjust settings without tools to suit tandem riding or luggage.

KTRC (Kawasaki Traction Control)

Kawasaki's advanced traction control system provides both enhanced sport riding performance and the peace of mind to negotiate low-traction surfaces with confidence. Three riderselectable modes offer progressively greater levels of intrusion to suit the riding situation and rider preference.

Brembo Brakes

The front brake package with Brembo components offers stronger stopping power and contributes to even more precise control and greater ease of use. The ø300 mm Brembo front discs and M4.32 radial-mount monobloc calipers are complemented by a Nissin radial-pump master cylinder with stainless-steel braided lines to deliver greater stopping power and a more linear progression when operating the brake lever.

Smartphone Connectivity

A Bluetooth technology built into the instrument panel enables riders to connect to their motorcycle wirelessly. Using the smartphone application “RIDEOLOGY THE APP,” a number of instrument functions can be accessed, contributing to an enhanced motorcycling experience.
